Palomade

Our interpretation of the classic paloma cocktail but with an indonesian twist.

We source sea salt from tejakula and arak from pak jero yudi in our sweet and slightly salty drink. perfect for the heat of the tropics.

Arak Madu

Arak, Bali's most traditional liquor, has become a pillar of the drinking culture across bars and homes.

Quite fittingly, it's the base of our arak madu. one of our most popular cocktails.

Our bar mixes it with wild forest honey, lime, and sparkling soda for a refreshing cocktail.

Old Man Kretek

The aromatics of clove is predominant in indonesian kitchens & was the inspiration behind old man kretek.

Our bartenders explored the intensity of the spice by smoking maker's mark until the perfect full-bodied cocktail was made. Named after the crackling sound of kreteks, it's not for the faint of heart.
